# impact dashboard - july 2018

### As of July, PSI averted an estimated 13.3 M DALYs, provided 9.6 M CYPs, and reached 15.4 M users globally.

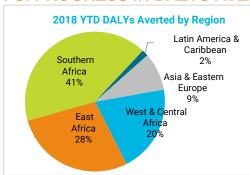

- Globally, PSI has reached 15.4 million users across the five health areas, 19% toward the goal of 90 million. Together, Madagascar, South Sudan and Myanmar have reached more than 6.5 million with malaria testing. Nigeria has reached 0.6 million with HIV testing. Vietnam has reached nearly 0.3 million screening for hypertension.
- PSI has reached 5.8 million women with modern contraception and provided 9.6 million CYPs in 2018. There is a shift toward service provision for modern contraception over social marketing. CYPs for both LTM and STM provided in health facilities have been growing consistently while sales CYPs have dropped.
- PSI safe abortion work has reached nearly 1 million women so far this year and achieved an estimated 912,581 completed abortions.
- We are applying an adjustment to previous month's reporting for PSI India (NGO), adding more than 300,000 CYPs, mostly from 21,078 women who received tubal ligations.

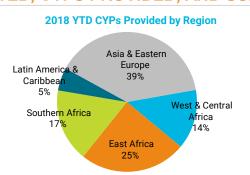

#### **PSI PROGRESS ON HEALTH IMPACT**
