SECTION 6: FACTORS INFLUENCING FAMILY PLANNING USE AND METHOD CHOICE

SECTION 7. SATISFACTION WITH SERVICE AND WITH PROVIDER DURING LAST OUTLET VISIT

Now, I would like to ask you questions about the last time you went to get a family planning method or service. You may not know or not remember answers to some of the questions I will ask you and this is OK. You can tell me when you don't know or don't remember the information that I am asking about. You can also tell me when you don't feel comfortable answering any question.

SurveyCTO Programming: this section and the subsequent sections (8-10) are for respondents who have used FP in the last 12 months, and specifically, have used only modern FP methods which require a visit to a facility [Soroti District: or CHW]. Exclude those who have used/are using methods which can't be obtained from a facility/CHW (i.e., lactational amenorrhea, Calendar method/rhythm, withdrawal, and other traditional methods) and route them to 929.

SECTION 8. COST OF METHOD/SERVICES RECEIVED AT LAST OUTLET VISIT

Now, I will ask you about the costs related to getting your [CURRENT METHOD /PREVIOUS METHOD] the last time you obtained a supply of the method. Again, it is OK if you don't remember all the information I am asking you about. You can just tell me that you don't know.

SurveyCTO Programming: this entire section is for respondents who have used FP in the last 12 months, including female sterilization. This is relevant only for those who have used modern FP methods which require a visit to a facility [Soroti: or CHW]. Exclude those who have used/are using methods which cant be obtained from a facility or CHW such as lactational amenorrhea, Calendar method/rhythm, Withdrawal, and other methods that are traditional.

SECTION 9: MATCHING PRIOR FP USE WITH SURVEYED OUTLETS; FACTORS AFFECTING OUTLET CHOICE

SurveyCTO Programming: this entire section is for respondents who have used FP in the last 12 months, including female sterilization.

Identification of facility [Soroti: or CHW] from where respondent obtained a supply of current method or previous method in the last 12 months

Now, I will ask you questions that will help me identify which specific facility you visited [or CHW you saw] the last time that you got a new supply of your FP method. I will also ask about other facilities near you. The questions being asked are meant to help us learn more about the FP products and services that the facilities provide and about your relationship with these facilities. You don't have to be concerned about giving me information about the facilities because the information is used only for our study and not used for monitoring the facilities. Also, the facilities will not have a way of finding out what you tell us about them.

You said that you last obtained a supply of your [CURRENT METHOD/ PREVIOUS METHOD] [XX] months ago.
